

Tape Resist Art

Introduction

Artists place easily removable tape onto their paper, color or paint the paper and carefully remove tape to reveal 'tape resist' design. Pinching and pulling tape is a great activity for developing fine motor muscles in the hand.

Supplies

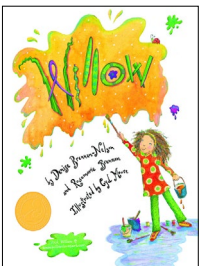

- Washi or painter's tape
- Crayons, colored pencils, markers and/or watercolor paint
- Paintbrushes
- Children's scissors
- Paper (cardstock or watercolor paper for paint)

Instructions

1. Tear or cut tape into pieces and place onto the paper to make a design (e.g. shapes, letters, anything goes!)
2. When artists are done with their tape design, use crayons/pencils/markers/paint to color the paper
3. Once done (or dry), carefully remove the tape to reveal the design
